

The Stargazer's Nook

10 sqm

The Stargazer's Nook

10 sqm

Introducing the latest addition to our collection, this uniquely designed 'Stargazer's Nook' cabin is ideal for homeowners that don't have the space in their yards for something large, or they simply need a separate space away from their existing house for an office, games room, luxury shed or even a hobbies room.

We examined the current market offerings for this size and aimed to create a design that stands out, incorporating ample natural light during the day and a perfect view for stargazing at night. This cabin design achieves both objectives.

You will not find a garden room constructed with ACQ-treated timber to a H4 standard and double-glazed glass at this price anywhere else. This is because we strive to deliver both quality and value for to customers.

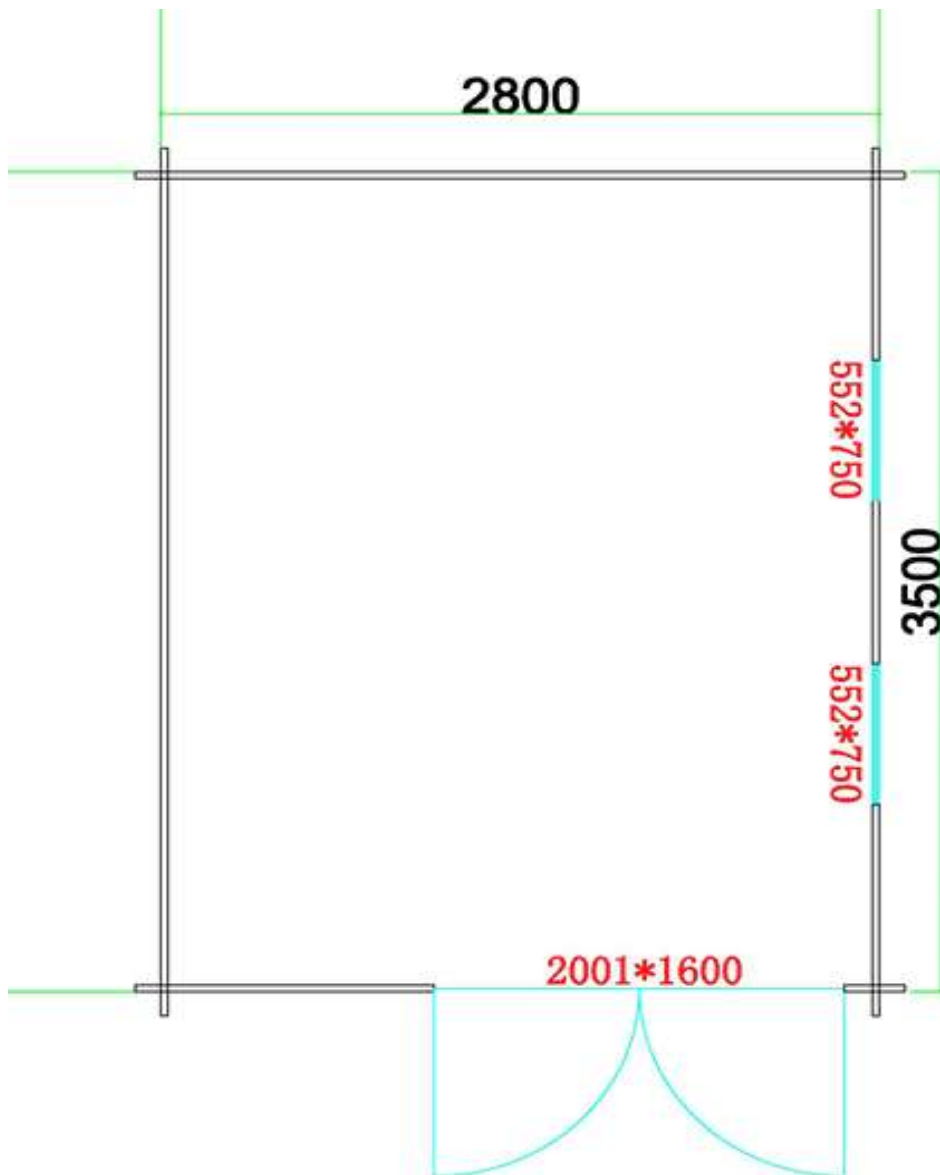

With quality doors and windows, you will not only have ample natural ventilation and light throughout, you'll also have natural insulation with the use of only thick double-glazed glass.

If this configuration doesn't suit the space you have to utilize in your yard, then check out the standard 'Nook' or the 'Little Lodge', both also only 10sqm.

Cabin Inclusions & Materials

At My Cozy Cabins, we take pride in offering high-quality, easy-to-assemble cabin kits designed for durability, comfort, and style. Below is an overview of the key materials, dimensions, and inclusions for this cabin.

Size & Structure

External Dimensions: 2.8m (W) x 3.5m (D) x 2.4 H (height
is excluding the subfloor frame)

Wall tongue and groove timber thickness: 36mm

Roof Board Thickness: 18mm

Floorboard Thickness: 18mm

Roof Beams: 36 x 145mm

Floor Beams: 36 x 145mm

Roofing – Customizable Options – Can reduce kit cost by \$300 if you'd like to get metal roof (we can order from your nearest Stratco at wholesale cost)

Your cabin kit includes high-quality asphalt shingle roofing, ensuring a durable and weather-resistant finish.

Constructed with fiberglass reinforcement, a bituminous waterproof coating, and ceramic-coated basalt granules for UV protection—ideal for the Australian climate.

Provides excellent acoustic insulation, reducing noise from rain compared to metal roofs. Highly resistant to wind, hail, and colour fading for long-lasting performance.

Available in 10 colour options to complement your outdoor space.

Waterproof membrane

Windows & Doors – Designed for Light & Space

We provide high-quality double-glazed glass French doors and windows, ensuring insulation, security, and maximum natural light.
